Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,8-14,41-44 are rejected under 35 U.S.C. 102(b) as being anticipated by Pittet 3,823,427.

Pittet discloses a locking aerosol dispenser for an aerosol dispensing device having an aerosol valve (50) for controlling the flow of an aerosol product from an aerosol container (10), which comprises an actuator (12) secured to the aerosol valve for displacing the aerosol valve from a biased closed position to an open position to discharge the aerosol product, the actuator being rotatable into a first rotational position relative to the aerosol container for enabling the actuator to open the aerosol valve upon movement of the actuator for discharging the aerosol product, the actuator being rotatable into a second rotational position relative to the aerosol container for inhibiting the actuator from opening the aerosol valve (col. 4, ll. 5-15), a container locator (11) for locating the actuator in the first rotational position relative to the aerosol container, the container locator extending radially outwardly from the aerosol container as seen in Figure 4, wherein the container locator provides a rotational stop upon the actuator being located in the first rotational position relative to the aerosol container (col. 4, ll. 5-15), wherein the container locator provides an audible sound upon the actuator being

located in the first rotational position relative to the aerosol container (please note that the container locator of Pittet will provide some types of audible sound upon the actuator being located in the first rotational position relative to the aerosol container in as much as the applicants' claimed invention).

Response to Arguments

3. Applicant's arguments filed 11/2/2007 have been fully considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick C. Nicolas whose telephone number is (571)-
